

MX850

Mixing System

Modular Mixing System Joins Vermeer HDD Family!

The MX850 is a high performance mixing unit built and designed to serve a large range of drilling rigs with a mud flow of up to of 850 litres per minute. The MX850 combines excellent mixing performance with a simple and robust construction.

Key Features:

- *Quality Components*
- *Easy Access*
- *Low Suction Inlet*
- *Rubber Engine Mounts*
- *Direct Drive*
- *Lift & Tie Down Points*
- *Inlet Filter*
- *Removable Top Cover*
- *2 Engine Options*
- *2 Pump Options*

Specifications

Engine: Hatz 2L41C Silent Pack diesel (22.2 kW) (29.7 Hp)
Optional: Hatz 2M41 diesel (23.5 kW) (31.5 Hp)
Engine mounting: Anti-vibration mountings
Pump: Warman Heavy Duty slurry pump
Optional: KSB slurry pump
Engine/pump drive: Direct drive (Highly Flexible coupling)
Tank capacity: 5000 litres
Mixing action: Venturi/eductor recirculation
Max. flow to drill rig: 850 L/m
Fuel tank capacity: 60 Litres (15-20 hours operation)
Length: 2535 mm
Width: 2390 mm
Height: 2240 mm (with optional forklift tubes: 2340 mm)
Weight: 2060 kg (empty tank)
Components: Metric

Use with: D16x20A, D24x33, D24x40A, D33x44, D55x100
